How do we get there?

There are a number of flights to Bonaire (airport code BON), at VERY affordable prices. For example: United direct flight from Newark \$817; United from Philly with connection \$840; American with connections from JFK \$790.

Just an FYI... airfare is all based on space on the plane. The first 10-20 seats are at one price, and then when those sell out, the airlines bump up the price \$30-\$40 per ticket until the next group of seats sell out, and so on, until the flight is full.
